

ASCEND RUSH

OVERVIEW

**GENRE:**

Parkour game

**PLAYER(S):**

Single player

**PLATFORM:**

PC

**TARGET:**

Speedrun fans
Parkour fans

**ENGINE:**

Unreal Engine 5

**PEGI:**

Ascend Rush is a frantic speedrun where speed is the key to victory. Play as Nyss, and pull off acrobatic moves to build up speed. In a world where every second counts, collect the pieces of Chrono-Ore and free the world from the grip of The Hand.

CHARACTER

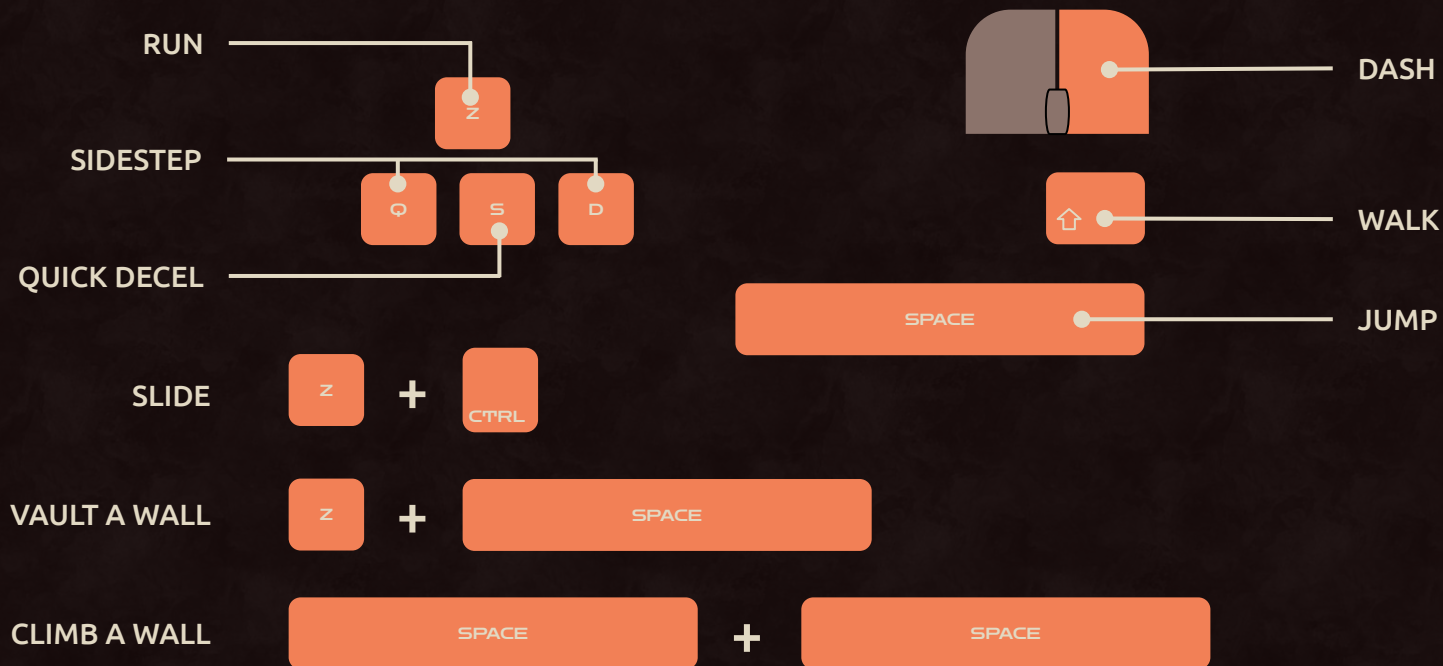

CHARACTER

- Play as **Nyss**, a former employee of The Hand, who now attempts to stop their misdeeds by stealing their Chrono-Ore stockpile.
- **The Hand** is a politico-military organization that controls people and the flow of time. Using Chrono-Ore, they shape time and write History to their advantage.
- **Chrono-Ore** is a material created by The Hand. Possessing spatio-temporal properties, it allows travel between different timelines and the ability to alter them.

GAMEFLOW

- The character must collect a Chrono-Ore in each level. Chrono-Ores, depending on their energy, are used to progress through the game and narrative.
- The player's objective is to bring the Chrono-Ore back to the exit. The Chrono-Ore acts as a hidden timer. It loses energy over time. This means the level must be completed as quickly as possible.
- To move faster, the player must use their full range of movements to perform combos.
